

FOR IMMEDIATE RELEASE

## **INTELISECURE NAMED A FINALIST IN 2015 AMERICAN BUSINESS AWARDS<sup>SM</sup> FOR MOST INNOVATIVE TECH COMPANY OF THE YEAR**

**13<sup>th</sup> annual Stevie<sup>®</sup> Awards will be presented on Sept. 11 in San Francisco.**

DENVER, June 2, 2015 – Intelisecure, the leading managed security service provider delivering critical asset protection for enterprise organizations worldwide, today announced it has been named a finalist in the *Most Innovative Tech Company of the Year* category of the 13<sup>th</sup> annual American Business Awards (ABA). Winners will be announced at the ABA's new product and tech awards banquet, Sept. 11, in San Francisco.

More than 3,300 nominations from organizations across the United States were submitted for consideration in a wide range of categories, including Tech Startup of the Year, Tech Innovation of the Year, and Business Innovation of the Year, among others. The American Business Awards are among the nation's premier business awards programs and all organizations operating in the United States are eligible to submit nominations. For more details about The American Business Awards and the list of finalists visit [www.StevieAwards.com/ABA](http://www.StevieAwards.com/ABA).

"We are pleased to be selected as a finalist in the ABA Awards and look forward to competing against a group of other highly-qualified, innovation-centric organizations," said Intelisecure CEO Rob Eggebrecht. "Intelisecure is booming and our growth has been fueled by the drive and dedication of our valued employees."

Intelisecure's highly innovative approach to managed security services and critical asset protection is raising eyebrows and filling a critical void as traditional cybersecurity point products and automated tools continue to miss the mark. The daily theft and compromise of highly sensitive intellectual property, including customer and patient records, M&A correspondence, blueprints, formulae and other mission-critical assets, can have a devastating impact on the enterprise; from damage to business unit operations and financial instability, to shaken customer and investor confidence and corporate reputation.

### **About Intelisecure**

Headquartered in the booming Denver Tech Center, Intelisecure protects more than 1 million users worldwide with managed security services tailored to safeguard enterprise assets from the escalating frequency and scale of global cybersecurity threats. Intelisecure challenges the status quo with unmatched human intelligence protection through its acclaimed Critical Asset Protection Program<sup>™</sup>, comprised of robust managed consulting, technical, incident response and security assessment services. By identifying and prioritizing critical assets such as intellectual property, Intelisecure delivers the continuous security monitoring intelligence required to protect organizations from internal or external compromise. Intelisecure tests and recommends leading security solutions from Symantec, McAfee, IBM<sup>®</sup> Security QRadar<sup>®</sup>, Websense, Proofpoint, Blue Coat, LogRhythm and Qualys, among others.
