

INTELISECURE WINS 2015 'TOP COMPANY' AWARD FOR TECHNOLOGY AT 28TH ANNUAL COLORADOBIZ TOP COMPANY AWARDS

DENVER, Sept. 3, 2015 – [IntelliSecure](#), the leading managed security service provider delivering critical asset protection for enterprise organizations worldwide, today announced it has been named a winner of ColoradoBiz magazine's 28th annual [Top Company Awards](#) for Top Company in Technology. Editors of ColoradoBiz announced the winners at an awards gala at the Denver Center for the Performing Arts last month.

"We thank the editors and staff at Colorado Biz for recognizing IntelliSecure as a winning Top Company in Technology, and are grateful for the opportunity to compete and shine against some of Colorado's most successful businesses," said IntelliSecure CEO [Rob Eggebrecht](#).

Eggebrecht said nobody in the information security industry is doing what IntelliSecure does in creating, implementing and managing Critical Asset Protection Programs, and combining that experience into a uniquely human approach to data security.

"We don't take a simple bits and bytes approach, but provide a holistic view of an organization's 'electronic nervous system' that protects what's most important to them," he said.

IntelliSecure's highly innovative approach to managed security services and critical asset protection is raising eyebrows and filling a critical void as traditional cybersecurity point products and automated tools continue to miss the mark. The daily theft and compromise of highly sensitive intellectual property, including customer and patient records, M&A correspondence, blueprints, formulae and other mission-critical assets, can have a devastating impact on the enterprise; from damage to business unit operations and financial instability, to shaken customer and investor confidence and corporate reputation.

"This year, we had a large number of nominees, and a very strong group at that," says Sandy Rothe, managing partner at Deloitte, a longtime Top Company co-sponsor that narrows the field of applicants to three finalists in each industry category. From Deloitte's list, a judging panel made up of ColoradoBiz magazine's editorial board and representatives from the business community selects the winners based on financial performance, excellence in one or more operational aspect of their business and community involvement.

About IntelliSecure

Headquartered in the booming Denver Tech Center, IntelliSecure protects more than two million users worldwide with next generation managed security services tailored to safeguard enterprise assets from the escalating frequency and scale of global cybersecurity threats. IntelliSecure challenges the status quo with unmatched human intelligence protection through its acclaimed Critical Asset Protection Program™ methodology, comprised of robust managed consulting, technical, incident response and security assessment services. By identifying and prioritizing critical assets such as intellectual property, IntelliSecure

Level 2 - Confidential
