

INTELISECURE WINS GOLD FOR BEST SECURITY COMPANY OF THE YEAR (SERVICES) AT 12TH ANNUAL INFO SECURITY PRODUCTS GUIDE'S GLOBAL EXCELLENCE AWARDS

DENVER, March 23, 2016 - IntelliSecure, the leading managed security service provider (MSSP) delivering critical asset protection for enterprise organizations globally, today announced it has won Gold for Best Security Company of the Year (Services) at the 12th Annual Info Security Products Guide's Global Excellence Awards.

The Info Security Products Guide is a leading information security research and advisory guide, and winners were announced during the awards dinner and presentation last month in San Francisco. More than 50 judges from a broad spectrum of industry voices from around the world participated, and their average scores determined the 2016 Global Excellence Awards finalists and winners.

IntelliSecure is raising eyebrows and filling a critical void as traditional cybersecurity point products and automated tools continue to miss the mark. The daily theft and compromise of highly sensitive intellectual property, including customer and patient records, M&A correspondence, blueprints, formulae and other mission-critical assets, can have a devastating impact on the enterprise; from damage to business unit operations and financial instability, to shaken customer and investor confidence and corporate reputation.

The company recently acquired UK-based [Pentura](#) following successful completion of a Series B equity investment round led by Charlotte, NC-based [Frontier Capital](#). In October, the *Denver Business Journal* named IntelliSecure the region's [second fastest growing company](#) among organizations earning between \$8M and \$24M annually.

"We thank the editors and judges of the 12th annual Info Security Products Guide for this honor, recognizing and validating IntelliSecure's position as the information security industry's leading next generation managed security services provider," said IntelliSecure Co-Founder and Chief Strategy Officer Rob Eggebrecht.

About IntelliSecure

Headquartered in the booming Denver Tech Center, IntelliSecure protects more than 500 enterprise customers and three million users globally with managed security services tailored to safeguard enterprise assets from the escalating frequency and scale of global cybersecurity threats. IntelliSecure challenges the status quo with unmatched human intelligence protection through its acclaimed Critical Asset Protection Program™ methodology, comprised of robust managed consulting, technical, incident response and security assessment services. By identifying and prioritizing critical assets such as intellectual property,

Intelisecure delivers the continuous security monitoring intelligence required to protect organizations from internal or external compromise. Intelisecure is one of North America's fastest growing companies, ranking on the Inc. 5000 in 2015 and 2014, #2 on the Denver Business Journal's fastest growing companies, and is the recipient of numerous industry awards and accolades. Intelisecure supports leading security solutions from Symantec, McAfee, IBM® Security QRadar®, Websense, Proofpoint, Blue Coat, LogRhythm, Titus and Qualys, among others.
